GCLS - Bookeye 4 KIC System

Published December 10, 2014 Uncategorized [Leave a Comment](#)

Greenville County Library System has added a new scanner to the department for use by patrons and staff. It is a Knowledge Imaging Center (KIC) Walk-Up Scanning/Copying System, better known as the Bookeye 4 KIC System. The scanner is located in the South Carolina Room. Using this system, copies from books, documents or photographs may be printed, saved to a USB device or emailed. The scanning area is 24' x 17 and it includes an adjustable cradle that can support fragile items at various angles. Currently copies can be made in black and white or grayscale at up to 400 dpi. Also, this system has the advantage of software upgrades to add color and to increase the resolution to 600 dpi in the future. If you have questions feel free to contact Susan Boyd.
