Form follows function with the Parsons Table KIC cabinet. It's 17" touch screen is set at just the right angle for easy viewing while activating controls. Its LCD display neck and mounting bracket allows you to take advantage of the new low prices of large LCD displays, leaving the entire visual area of the touch screen for large, easy to understand controls.

The Parsons Table KIC Cabinet provides a full 38" wide by 30" tall area for generously spaced wheelchair access. Its all steel construction and uncluttered design is sturdier and more attractive than top-of-the-line, floor-standing photocopiers.
